

Daily Opens

Cheat Sheet

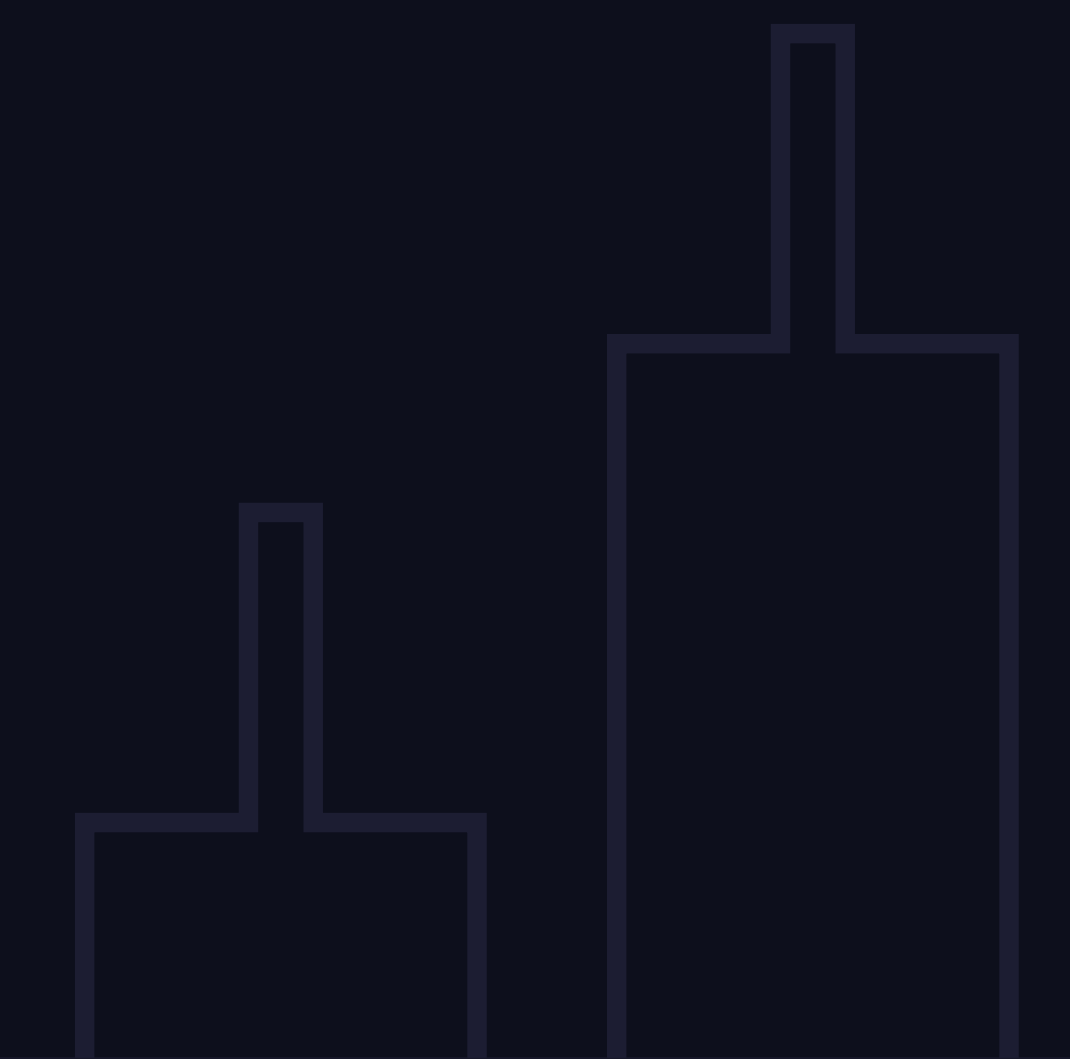

Daily Open

The Open Drive gave a strong IB

When IB gives a strong push it shows larger players moving price. If volume back ups the move expect **Strong Breakout Trend** trade setup.

When price potentially (not required though) opens outside of VA and continues in a direction quickly with volume.

Open Test Drive

Price starts off slow, tests daily open and then rejection occurs with volume.

The daily open gave a weak IB Open Test Drive

The daily open is weak with low volume, but when price **Retests the Daily Open** and volume increases it gives a trade setup opportunity

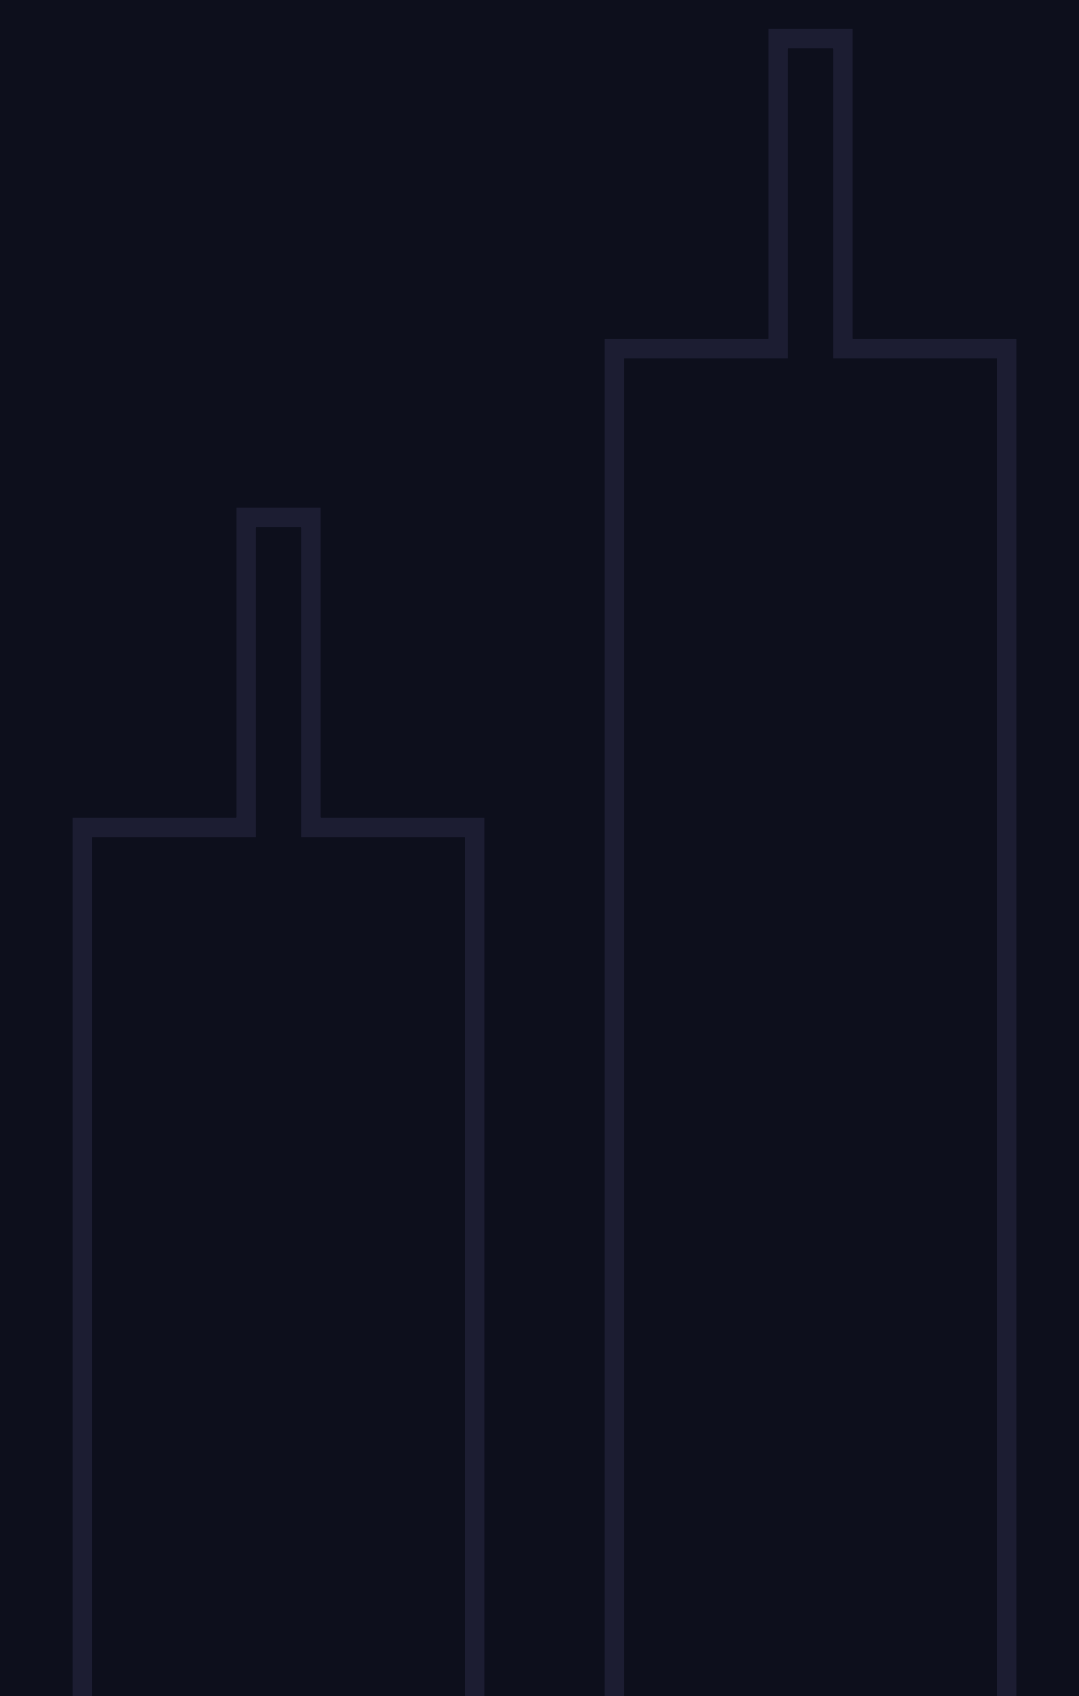

Open Rejection Reverse

The Open Rejection Reversal gave a weak IB

weak open in which price tests a key level. After test price **Rejects and Reverses** with an increase in volume trade setup is present

The open makes a weak directional move, tests a key level which is strongly reversed.
